BRITISH VOICE APPROVAL OF ITALIAN IDEAS

In Agreement on Procedure Necessary to Save Disarmament Conference

STATEMENT MADE BY SIR JOHN SIMON

LONDON, Nov. 24 (AP).—The Government's approval of Italian ideas on how the Disarmament Conference could be saved was announced today by Sir John Simon, Secretary for Foreign Affairs, before the House of Commons.

Since Italy desires to put Premier Mussolini's four-power Western European peace pact to work, Sir John's statement was viewed in informed quarters as strengthening a possibility of eventual arms discussions by France, Germany, Italy and Britain in Rome, while the League of Nations machinery would temporarily be in abeyance.

PARTNER, NOT TARGET

Sir John explained British steps to promote disarmament consultations in which Germany would be considered "not a target for dictation," but a "partner for discussion."

The Government, he said, has communicated with the French, Italian and German Governments.

"We have already made it plain to the French Government that if they saw their way to enter into other communications with Berlin, they would have our complete good will in doing so," the Foreign Secretary told the legislators.

WELL SATISFIED

"We also have communicated to Italy how well satisfied we were to learn she had agreed with us to keep the conference in being, and how satisfied we were that the present procedure, which Italy has been urging on us, has been the correct procedure."

The British Government welcomed Chancellor Hitler's assurance that Germany's one desire was for peace and that she had no aggressive designs.

He added that "in the first instance at any rate, exchanges of views should be conducted through diplomatic channels in the form of bilateral conversations."

NATIONAL RADIO STATION URGED

City Council Will Take Steps to Secure Partial Return of \$20,000

Return of at least a portion of the \$20,000 taken out of this city in radio licences will be sought by the City Council by conducting a campaign for the establishment of a national radio broadcasting station in Victoria.

The City Council at its meeting yesterday unanimously endorsed a motion, submitted by Aldermen J. D. Hunter and Walter Luney, to take the necessary steps to bring about the establishment here of such a station.

Having adopted the principle, the matter now goes to the industrial committee so that the proper steps can be taken and the proprietors of CFCP conferred with to see that their interests are protected to the fullest extent.

PUT CITY ON MAP

Alderman Hunter, in advancing the proposal, said he had made a deep study of the situation, and he felt that Victoria should be taken out of a backwoods position and put on the radio map of the Dominion.

"If you want to have a good Canadian programme, you have to tune into a Vancouver station," he declared, referring to the national broadcasting station here. He then enumerated the many Canadian entertainment programmes, which were of an outstanding character.

May Inquire Into Finances Of Provinces

(Special to The Colonist)
OTTAWA, Nov. 24.—The four Western provinces are now heavy debtors to the Federal Government, and it is believed that before further advances of any magnitude the Federal Government will insist on a royal commission to ascertain their full liabilities, fixed charges, revenue, and the probability of each or all of them being able to liquidate current debts to the Federal Government and the public.

If it is found the revenue available is not sufficient for this purpose, it is evident there will have to be some outside financial advice and direction before further advances would be justified. This would be but fair to the other provinces, and in the best interests of the provinces financially embarrassed.

Marks on Stone Cause Controversy

FOUND BY Joe Sagnalovich (above) on his farm near Winnipeg, a rock bearing strange markings has become the centre of heated controversy. Some authorities contend the markings, shown in the inset, are hieroglyphics carved by ancient Norse settlers. Prof. S. R. Kirk, of the University of Manitoba, last night said they were caused by weathering.

Many Persons Seriously Hurt in Battle at London Meeting

LONDON, Nov. 24 (AP).—Men heaving chairs and women, umbrellas, joined in a battle of rival Fascist organizations at a meeting hall, tonight, and many persons were seriously hurt.

The uproar started when a heckler, addressing the man on the platform, shouted, "I object to that man cleaning his fingernails in public."

Immediately half the audience rose, shouting "apology." The platform was then bombarded with chairs, hundreds of which were smashed.

A number of men lay unconscious on the floor, some under piles of chairs, when a strong force of police arrived and quelled the riot. The Imperial Fascist League proceeded with its meeting.

Expect Approval Of Colonial Plan For Newfoundland

Both Upper and Lower Chambers of House Likely to Ratify Reversion Proposal to Avert Financial Collapse—Public Sentiment in Favor of Commission's Report Growing

S. T. JOHN'S, Nfld., Nov. 24 (CP).—Newfoundland was moving swiftly tonight towards a return to colony status. Public sentiment favoring the Amulree Commission's report was said to be growing, and there were clear indications the report—its chief recommendation proposing the Island Dominion temporarily relinquish responsible Government—would be approved officially by both upper and lower chambers.

The Legislature convenes on Monday, and the overwhelming majority of United Newfoundland party supporters, under Premier F. C. Alder, stand ready to ratify the commission's findings.

To the favorable reaction towards the report was added, today, the voice of the influential Newfoundland Board of Trade. Meeting in special session, the board gave almost unanimous approval to the proposal set forth in the report and the British Government White Paper which accompanied it.

There was only one dissenting vote as the board went on record as endorsing the proposals "as being, under present conditions, in the best interests of our country."

OPPOSED TO PLAN

Ir. St. John's, last night, Sir William Coaker, former Minister of Marine and Fisheries, expressed his "emphatic" opposition to the commission's recommendations.

In Toronto, a former leader of the Opposition and holder of several Cabinet positions, Sir Alfred Morine, was equally strong in his opposition. To deprive Newfoundland of responsible government, he wrote in an open letter, "is extreme and unjustifiable, tending to degrade the colony in the estimation of the world and repugnant to the sense of liberty."

Al Smith Joins War On Roosevelt's Use Of "Baloney" Money

Says American People Being Turned Into Guinea Pigs for Experimentation

PRESSES FOR RETURN TO GOLD STANDARD

NEW YORK, Nov. 24 (AP).—Alfred E. Smith broke openly today with President Roosevelt's monetary programme, declaring he was for "sound money" and a return to the gold standard. "I am for gold dollars as against baloney dollars," said the former governor in an editorial to be published in December issue of The New Outlook.

"I am for experience as against experiment. If I must choose between private management of business and management of a Government bureaucracy, I am for private management."

LIKE GUINEA PIGS

"If I must choose between the leaders of the past, with all the errors they have made, with all the selfishness they have been guilty of, and the inexperienced young college professors who hold no responsible public office, but are perfectly ready to turn 130,000,000 Americans into guinea pigs for experimentation, I am going to be for the people who have made the country what it is."

"And I say this with full knowledge of the fact that there are many things in the old order of society which I should like to have changed, and which I do not applaud or even condone."

CREATES SENSATION

Appearance of the statement created a sensation in New York, with afternoon papers displaying it under large headlines. Smith was not in his office, and attendants there declined to say where he could be located.

WATER CHARGES ARE INCREASED

Larger Connections Will Pay Higher Minimum Rate Than at Present

A new schedule of water service charges was drafted and decided upon at yesterday's meeting of the City Council. The new water rates by-law came up for discussion. The new schedule of charges is higher in so far as the larger water connections are concerned, and will increase the city's revenue from \$119,800 to \$123,400 annually.

Prior to the council taking definite action in respect to setting a new basis of minimum charges, deputations were heard from various business organizations, and some of their suggestions were acted upon.

ARE SATISFIED

The apartment house owners are now satisfied with the new charges, while the industries of the city were given a reduction on the proposed new scale of charges, although the minimum charge will be slightly higher than the rate now in effect.

The accompanying table gives a picture of what has happened in connection with water rates throughout the city and outside will be seven and a half cents per 100 cubic feet, or twelve cents per 1,000 gallons.

Monthly Table of Employment Gives Important Increase

Rise Takes Place Contrary to Usual Downward Movement for the Season—Acting Minister Sees Outlook Brighter Than for Years

A GAIN of 8,600 in the number of persons employed by the 8,400 leading industrial establishments who make monthly returns to the Dominion Bureau of Statistics was noted for October, according to a statement issued today by Hon. R. J. Manion, Acting Minister of Trade and Commerce.

On November 1, 1933, 1,645,291 persons were employed, which raised the index from 90.4 on October 1 to 91.3 on the date referred to. The index base is 1926 equals 100.

"This increase," said Mr. Manion, "is of special importance owing to the fact that it is contrary to the usual seasonal downward movement at this time of year since 1920."

CONTINUING MOVEMENT

The expansion at the beginning of the present month continues the upward movement, which has been evident since April 1. In these seven months nearly 142,000 workers have been added to the staffs

THREE BANDITS IN VANCOUVER STEAL GEMS

Wholesale Jewelry Firm Is Robbed of Diamonds Worth \$3,100

PART OF LOOT FOUND HIDDEN IN WOODSHED

VANCOUVER, Nov. 24 (CP).—Police tonight had recovered eleven gross of jewelers' saws and five empty jewel cases, part of loot valued at more than \$3,200 taken by three bandits in a raid on a wholesale jewelry firm, here, this morning. It was estimated the loot included \$3,114 in unset diamonds and jewelry and approximately \$100 cash.

Two boys, Gordon McLeod and Ralph Roddy, discovered the saws and jewel cases, together with six insurance policies, hidden in a woodshed not far from the scene of the robbery.

Three armed men carried out the robbery shortly after 9 o'clock, this morning, at the premises of Trayling & Water, on the upstairs floor at 326 West Hastings Street.

EIGHT EMPLOYEES IN SHOP

Eight employees were in the shop when the bandits staged their raid. Jack Waters, son of one of the members of the firm, was at the counter, and seven others were in the adjoining room, which served as a factory.

One bandit covered Waters while another walked swiftly into the factory, flashed a gun, and herded the employees there against the wall.

WATCHES ON STAIRWAY

The third bandit had meanwhile remained on watch outside the door on the platform at the head of the narrow stairway leading to the shop.

While the robbery was in progress, J. McKay, manager of the shop, arrived on the scene. He walked past the bandit outside him, but as soon as he was inside, he found himself confronted by a gun, and was herded into the factory with the rest of the staff.

WINNIEPEG, Nov. 24 (CP).—The

Runic stone of Sandy Hook, now equally famous for its prehistoric inscriptions as for the furore its discovery created more than a week ago, may be shipped to Toronto, where authorities in the Eastern city have expressed a desire to examine the "writings" on its face, believed by some to contain a record of Viking exploration of Manitoba a century before Columbus.

Today the stone lies in a newspaper office, where its authenticity as a Norse relic is being further investigated by historical and geological specialists. Paint hieroglyphics etched on one side, lured Professor S. R. Kirk, of the University of Manitoba, and a party of newspapermen, to Haverick, forty-five miles north of here, last Saturday. On arrival, they found the stone had been removed.

"Weather, just weathering," was the observation of Professor Kirk, when he viewed the relic today. Curious markings that look like inscriptions appear in lines along the strata of the stone, and dwindle or increase with the varying thicknesses of the strata. The professor questioned the validity of the inscription theory in view of the presence of marks on a curved end, their small size and haphazard nature.

PAY PROFESSORS And Avert Strike

MONTREAL, Nov. 24 (CP).—Danger of professors at the University of Montreal going on strike has been averted. Today they received two months' back salaries from a grant by the Quebec Government. They had threatened to cease teaching if the money was not forthcoming.

Vancouver Woman Bound by Thug—Son Frightens Man Away and Calls Help

VANCOUVER, Nov. 24 (CP).—Mrs. Harry Price, 1208 Harwood Street, was held up in her home tonight, and chloroformed by a bandit, who was apparently subsequently frightened away.

The bandit knocked at the door, and when Mrs. Price answered, asked if her husband was at home. On receiving a negative reply, he produced the gun, tied her to the door, gagged and chloroformed her. Mrs. Price's seven-year-old son, Junior, awakened, and seeing his mother's plight, got aid from neighbors. It is believed the bandit was frightened away by the boy, as nothing was disturbed.

UNNAMED MARINE FREAK Found by Vancouver Men

VANCOUVER, Nov. 24 (CP).—A marine freak without eyes, six feet long, less than three inches at its greatest width, smooth without fins or scales, was caught off Swash Rock, Stanley Park, today, by three Barclay brothers, Charles, Fred and William.

It was taken on their cod lines at a place where the water is 180 feet deep.

Former Minister Answers Attack On His Financing

J. W. Jones Compares His Task as Head of Department With Record of Hon. John Hart When in Office Before—Says Public Was Advised of Deficits

REMINING his audience he had been first attacked, J. W. Jones, former incumbent of the office, lashed back last evening at statements made by Hon. John Hart, Minister of Finance, in describing the financial affairs of British Columbia. Mr. Hart, Mr. Jones averred, appeared to be suffering from the financial jitters, and in his opinion had committed a political harikari on himself. Mr. Jones spoke at the Davies' rally at the Royal Theatre, and again at the Chamber of Commerce.

Defending his own attitude in the case, Mr. Jones said he had been the first Minister of Finance to leave a plain financial statement for a succeeding minister. There had been neither occasion nor warrant for the attack made on himself, unless it was that the situation had, in three days of office, got on the nerves of the honorable minister. The effect of Mr. Hart's criticisms, he stated, had been to seriously damage the credit of the Province, and to render more difficult the task of British Columbia financing itself on reasonable terms in the immediate future.

MADE CASE CLEAR

In his own budget speech of March 16 last, he had warned the Legislature and the public of the true facts of the situation, saying: "I have hidden nothing from this House and from the country, for the people, I believe, are entitled to know where we have been traveling and where our former path will lead if we persist in following it. We have been living beyond our means for years, and the depression has made it clear to us. The economies of this budget are the foundations for these reforms."

The 1933 budget had not been balanced, and he had shown why, and was in turn condemned by the press of the country for the frankness of his disclosures. The recent Administration had inherited a legacy of debt from former Administrations, had faced revenues falling month by month, and had to attempt reduction in distressing times.

HAD CUT COSTS

As Minister of Finance, he had forced reductions on all branches of the Government service; had been forced to curtail municipal grants much against any desire in the matter; and had to impose some additional taxation. Expenditures, it was found, could not be cut as fast as the revenues fell, but a sincere effort had been made to economize, and the reductions made had been proportionally greater than by any other Government in Canada.

Meanwhile, the late Government had been importuned by the then Opposition to increase expenditures. For the last three years he had accepted the task of trying to finance the Province, and had not whined about it.

Mr. Hart had declared he was appalled and shocked at the state of British Columbia's finances. Mr. Hart had first assumed the Finance portfolio in 1918, when the public debt was \$25,500,000. Taxation had been doubled, a surtax had been added, and seventy-nine new or increased taxes had been introduced under that regime. Revenues had been worked up by taxation from \$7,000,000 a year to \$19,000,000, but expenditures had kept pace.

Total revenues collected between 1918 and 1924, during Mr. Hart's

regime, had amounted to \$117,532,000, but much more had been spent. There had been only one surplus, of \$360,000, while the deficits over the six years amounted to approximately \$12,000,000. The debt had been increased from \$25,500,000 in 1918 to \$93,400,000 in 1925, an increase of \$67,900,000, while Mr. Hart had been Minister of Finance. The debt increase worked out at 375 per cent, and with the revenues collected during the six-year period had amounted to \$185,000,000, which had been the sum expended.

Mr. Hart, as Minister of Finance, in the same period had approved of incurring non-productive debts amounting to \$93,500,000, Mr. Jones continued. Of these the University scheme had cost \$6,000,000; Land Settlement Board project, \$7,000,000; the Oliver project, \$3,500,000; irrigation schemes, \$3,000,000; industrial loans, \$1,000,000, and the taking over of the P.C.E., on which \$75,000,000 had been invested.

CUT \$9,000,000 OFF

When the Tolmie Government took office it found a debt of \$104,000,000; further commitments of \$6,000,000, and deficits of \$8,000,000; or a total of \$118,000,000, Mr. Jones declared. He had not been responsible for the first two years of the administration, but in the last three had pared expenditures by more than \$9,000,000.

"Mr. Hart has complained because I left an empty treasury. Did he expect a full one, under present conditions? In August, I floated a 5-1/2 per cent loan for \$3,000,000 at 5.60, \$2,000,000 of which was for unemployment relief. I had no difficulty in floating that loan at 4.25," Mr. Jones continued.

"My friend says he cannot go on the market. We know very well who it is who has made it impossible for the Government to go on the market. He has wrecked the credit of the Province with his ill-considered statements, and in my opinion he has committed political harikari," Mr. Jones declared.

MATTER OF INTERPRETATION

The late Government had increased the debt by 40 per cent, but in which Mr. Hart had been a member had increased it by 375 per cent. He, Mr. Jones, had stated the debt to be \$139,000,000, and so it was, without inclusion of the deficit not yet funded. Mr. Hart had complained of unfunded debt of \$17,532,000. More than five of these millions were in Federal loans against British Columbia treasury bills, for unemployment, \$4,097,000 in bank loans against treasury bills, and \$7,497,000 in the deficit.

The Dominion was not pressing, nor was the bank; and treasury bills were renewable, Mr. Jones observed. He had foreseen, in either respect, and eighteen months ago British Columbia had owed twice as much to the bank as it did at present.

There was no secret about the deficit of last year, and he stated the exact position of the House. Some \$2,000,000 of the deficit was for unemployment relief. There had been no abuse of superannuation and teachers' pension funds, with \$5,441,000 invested for the former, and \$842,754 for the latter. It was true the fund had a credit of \$741,000, due from the consolidated revenue, but this was less by far than the similar credits due under former regimes.

STRONG SINKING FUND

Reference to his budget speech this year would have disclosed the exact condition of the sinking fund, which was that there had been a surplus of \$2,950,000, with this year's allotment to be left unbudgeted unless revenues picked up. The net shortage in the sinking funds was \$171,000. These funds, at approximately \$30,000,000, were greater than held by the four provinces of Ontario, Manitoba, Saskatchewan and Alberta combined, and were the strongest single credit factor of the Province.

Departmental expenditures in British Columbia were now less by \$500,000 than they had been in 1920-21, and this in face of the fact that great and unusual burdens had had to be carried in the last three years, with a peak of 129,000 persons on relief at one time. If Provincial credit had been hurt, and it was a fact that British Columbia

Early Closing of Civic Budget Will Be Asked by City

AS a result of a motion submitted by Alderman P. R. Brown, chairman of the finance committee, the City Council yesterday decided to ask the Provincial Government, through the executive of the Union of British Columbia Municipalities, to set a policy of holding the sessions early in the year so that civic budgets could be closed early.

Alderman Brown pointed out that it was not until late in May of this year that the city closed its budget, owing to the delay in the Provincial Government in respect to the policies that affected municipal finances.

bonds had dropped on the market in the last few days, the public would know where to lay the blame, Mr. Jones concluded.

AL SMITH JOINS WAR ON ROOSEVELT'S USE OF "BALONEY" MONEY

Continued from Page 1

The statement expressed Smith's personal belief. The Democratic party is stated to be always the party of greenbacks, paper money, printers, free silverites, currency managers, rubber dollar manufacturers and crooks.

"What we need in this country is absolute dependability in our money standards. It is the only thing which will restore confidence. The late fiscal manes of the administration have undermined public confidence. They have created uncertainty."

NOT CHANGING POLICY

WARM SPRINGS, Ga., Nov. 24 (AP).—President Roosevelt let it be definitely known, tonight, he is pushing on with his commodity dollar as he declined any public reply to the critics who joined in a severe statement by Alfred E. Smith.

Two fighting lieutenants came to the "Little White House" today, and one of them—Hugh S. Johnson, recovery administrator—fired back at the Administration monetary foe, even before seeing Mr. Roosevelt. But the apparently unconcerned President spent the day as usual here, and Henry Morgenthau, Acting Secretary of the Treasury, drove money into hiding, and places the entire burden of sustaining the dollar on the central Government.

DRIVE IN THE IRON

No procedure, the Foreign Secretary told the House of Commons, could have been more calculated to "drive the iron into Germany's soul" than to have told her that her withdrawal last month from the Geneva parity had no difference, and that an arms convention would be established and offered her for signing.

SAYS PEOPLE SEEK ACTION

Dr. Clem Davies Brings His Campaign to Close With Big Rally Here

Speaking at the Royal Victoria Theatre last evening, Dr. Clem Davies laid up his campaign as an Independent candidate here in a whirlwind finish. The theatre was crowded and many had to be turned away. J. W. Jones and Harry Owen shared the privileges of Dr. Davies' meeting, over which Capt. H. S. Thain presided.

The late Government had topped on the rocks through ineptitude. The new administration had won office by spacious promises of work and wages, for which no concrete plan had yet been forthcoming. Dr. Davies averred. Already, he declared, serious ministerial blunders had met the public eye, and the only solution to all questions had been a promise that Premier Pattullo would go to Ottawa to ask financial aid from the Dominion.

QUESTION OF OPPOSITION

Victoria did not have to accept the moral bribe of a Cabinet portfolio, and would do well to place in the Legislature four men with their wits and eyes about them, continued the speaker. With 40 per cent of the votes cast, the Liberals had attained thirty seats, leaving 60 per cent to be represented by an Opposition of seventeen. Each seat in the Opposition had now to be made count, he declared.

The new Government was weak for two reasons, he argued. First, because it represented a minority of the people; and secondly, because Premier Pattullo himself had said so, in appealing for six more supporters, on the ground that a split in the Government side might overthrow the ministry.

DISCUSS CABINET

Dr. Davies said some of the best Cabinet material had been left out of the Administration which, he asserted, included those who might not be able to resist the temptation of listening too much to certain quarters in Vancouver, from which the Premier had received an impression that strings might be pulled. The speaker renewed his assault on the appointment of the Liberal organizer to the post of assistant to the Premier, on the ground of his organization interests.

On the main policy of work and wages, the public had waited for twenty-one days, only to be told that Premier Pattullo must first ask Ottawa. It was a case, said Dr. Davies, of Mr. Pattullo offering as a solution for all ills his willingness to blast his way to the feet of an adverse Administration at Ottawa. Mr. Hon. W. L. Mackenzie King, under directly similar conditions, had said he would not give a five-cent piece to British Columbia. Did Mr. Pattullo expect more? Dr. Davies queried.

NEW MINISTER

From the standpoint of investors in British Columbia securities, the new Minister of Finance had proved himself an embarrassing company for the new Administration, continued the speaker. It might ease the embarrassment to elect others on polling day, he declared. A bank manager had declared that the construction placed on British Columbia finances by the new incumbent would cost British Columbia about \$1 per word. This was costly than silver-voiced orators or golden tenors.

Harry Owen, Labor candidate, delivered a short but concise speech in which he appealed for support at the polls. Men could not sustain their families on the wages paid in some industries, and the relief rates left nothing for decent standards of living, he averred. The bulk of the people earned less than \$100 a year, and the viewpoint of one long associated with organized labor should be of benefit in the councils of the Province, he concluded.

BRITISH VOICE APPROVAL OF ITALIAN IDEAS

Continued from Page 1

Sir John recently returned from the Geneva Disarmament Conference, and he outlined his views on January in order to allow discussions to proceed through diplomatic channels.

INTENTIONS RECORDED

In a speech tonight in South London, Sir John declared the disarmament imposed upon Germany by the post-war Versailles Treaty was no conditional on the disarmament of others, but it was certainly recorded that the intentions of the victors were to follow with their own.

Memory, he added, "is a barrier in both the cases of France and Germany" to a disarmament agreement. He repeated his convictions of France and the "humiliation" of Germany in 1919.

In Chancellor Hitler the Germans had a leader, Sir John declared, "who, whatever you think of his methods, embodies their claim to dignity and a status of equality."

He can't talk mother he just cries to warn you

WHEN he's fretful... a regular little croupch... Mother, you may be sure it's a sign of some disorder. Often it is constipation, childhood's commonest ailment... and he may need a good laxative. But, Mother... consider carefully the laxative you give him. For many laxatives made for adult use are far too harsh for his sensitive little system. Even in reduced doses they may do more harm than good.

When your baby needs a laxative, Mother, take no chances... give him Castoria... the laxative made especially for children. Castoria is absolutely safe... and sure. It is gentle in action... does not gripe... is not nauseating. It is a pure vegetable preparation. It contains no harmful drugs... no narcotics... or anything to harm the tiniest system. Ask your druggist for a family size bottle. It is especially economical for older children.

REDUCED 30 lbs. AT AGE 60

Could Not Do Her Work

New Walks Four Miles a Day

One hundred and ninety pounds was the weight of this 60 years old woman. How long she had been burdened with all that superfluous flesh we do not know, but she proves that it is "never too late to reduce."

She writes:—"I could not walk around to do my work. I started to take Kruschen. When I had taken three bottles, I found I was able to walk four miles a day with comfort. I am 60 years old and my weight was 190 lbs. Now it is 160 lbs. I did not diet, and my appetite is good. I have found Kruschen Salts of great benefit for all my ailments."—(Mrs.) G. U.

Kruschen is a scientific blend of various mineral salts found in the waters of those European spas which have been used by generations of overworked people to reduce weight. These salts combat the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be converted by

FINAL COUNTS COMMENCED

Liberal Nominee in South Okanagan Increased Lead Over J. W. Jones

J. Allen Harris, Liberal member-elect for South Okanagan, increased his lead over J. W. Jones, former Minister of Finance, who ran as an Independent in that riding, in the first telegrams from British Columbia returning officers reaching the Legislative Buildings yesterday. The final count is proceeding slowly all over the province, in all but two of the thirty-nine ridings. Several days will elapse before the completed figures may be known.

E. J. Maguire, returning officer for South Okanagan, completed the final count, and reported by telegram to the deputy provincial secretary here. After the absentee ballots had been added, the standing in South Okanagan stood: J. A. Harris (Lib.), 1,636; J. W. Jones (Ind.), 1,445; O. L. Jones (C.C.F.), 1,282. Mr. Harris' lead was originally 161, this being increased on the final count to 191 of a majority over his nearest opponent.

In Esquimalt, and Saanich the final count was commenced under J. R. Collier and W. H. Carr, returning officers in the respective ridings, but final figures are not looked for until some time today. The issue in Esquimalt is relatively close, and the result of the final count is being awaited with keen interest.

Today, it is expected, a number of results will be known, after the completion of fresh counts in the less populous centres. Tallies from isolated points, and in the larger centres may take several days yet, as far as could be learned late yesterday, there have been no upsets in the announced standing of candidates.

When it was finally decided by Mr. Justice H. B. Robertson that he would admit of the calling of Mr. Heilmann by the defence, it was found that the witness who had been in the court in the forenoon was not present in the afternoon. It was decided to postpone the trial until next Friday. With regard to Mr. Brethour, it was stated by Mr. Harrison that he was not so particular about pressing for his evidence.

Mr. Crease took the ground that it was contrary to the regular practice to reopen the case. Mr. Harrison cited authorities to show that at any stage of the proceedings the trial judge was at liberty to allow of the taking of fresh evidence if he believed it would be in the interests of justice.

Wingless Autogyro Makes Flight

THE "wingless" type of autogyro machine, designed and constructed by Juan de la Cierva, inventor of this type of aircraft, shown during its first test, held at Hanworth Airport, England, recently. The plane, absolutely without wings, but having a horizontal and perpendicular propeller, is shown taking off from the ground after a run of but ten yards. The tremendous "wing-spread" of the horizontal propeller takes the place of wings in this two-seater "windmill" plane.

HISTORICAL FILM - NOW AT CAPITOL

"Private Life of Henry VIII" Stars the Famous English Actor, Charles Laughton

Charles Laughton brings to the Capitol Theatre today his interpretation of Henry VIII as England's much married monarch in "The Private Life of Henry VIII," a London film production and a United Artists release.

As directed by Alexander Korda from the story by Lajos Biro and Arthur Wimperis, "The Private Life of Henry VIII" presents in a light, humorous and modern mood the story of the sixteenth century king and five of his six wives, two of whom he had beheaded and two of whom were divorced.

Eliza Lanchester, in private life Mrs. Charles Laughton, plays Anne of Cleves, the German duchess whose marriage was for reasons of state, and was very short and very funny, lasting only a day and part of a night spent over a card game.

Binnie Barnes plays the important role of Katherine Howard, who put aside her love for Thomas Culpeper for the crown and queen and lived—and died—regretting it. Wendy Barrie, Merle Oberon and Evelyn Craig are the other wives and other important roles are portrayed by Miles Mander, Claud Allister, Lady Tree, Robert Donat and Franklin Dyall.

DOMINION William Powell will be seen at the Dominion Theatre for the last time today in "The Kennel Murder Case."

This brilliant drama marks the return of William Powell in the role of Philo Vance, famous detective. As the added attraction the Dominion is showing Loretta Young in "She Had to Say Yes."

EMPIRE Arthur Wontner, as "The Missing Rembrandt," the current attraction at the Empire Theatre, has been enthusiastically received by the critics wherever the picture was shown.

Among others, William Boehnel, of The New York World-Telegram, has said that "this impersonation of this character is far superior to that

of the "Netherlands."

An item appearing in Thursday's Dominion, referring to changes of constitution for Estonia, stated that P. A. Shuman was consulted by the "motherland." This should have read consul-general for the "Netherlands."

CIVIL SERVICE TESTS TODAY

Nearly Five Hundred Will Write On Stenographic Examinations in B.C.

Approximately 400 stenographers will take the test in the Provincial Civil Service examinations, commencing at many places throughout British Columbia today. This number compares with 758 who wrote the tests or certificates in 1931.

The examinations are being held in response to insistent demand by those who wish to secure provincial certificates, in spite of the fact that a large number of qualified stenographers are already on the waiting list of the Civil Service. The certificates are valued as a mark of proficiency, though without promise of any opening in the Civil Service for some time to come.

Approximately 160 young women will take the test in Victoria, 130 in Vancouver, and 200 in all other areas combined. The Victoria test will be made in the Legislative dining-hall, above the Speaker's gallery, with an afternoon sitting at 2:30 o'clock and an evening sitting at 7 o'clock.

COURT DISPUTE OVER PROPERTY

East Indians Aired Their Troubles Before Judge F. S. Lampman Here Yesterday

In the County Court, yesterday, Judge F. S. Lampman heard evidence in the case of Jaga Singh and Nana vs. Nana Singh and reserved his judgment. In this case, which had to do with the title to a certain piece of property, the name of Tajore, an East Indian woman, who has been brought into several cases among her countrymen of late, was introduced again into the proceedings.

It was contended that the lot, which had been in the name of Nana was really held in trust for Tajore, who, after her husband died, bought the house as a home for her children. Tajore, it was stated, did not want it in her name as she was drawing down a widow's pension. There were various counter ac-

counts submitted in connection with the case requiring consideration in reaching a final decision by the court. Norman W. Whitaker appeared for the plaintiffs, and R. C. Lowe for the defendant.

FINAL RALLIES HERE TONIGHT

Closing Appeals to Victoria Electors Will Mark End of Campaign

With closing rallies at the Royal Victoria Theatre, the Chamber of Commerce auditorium and the City Temple, the provincial election campaign in Victoria will come to a whirlwind climax this evening. Sunday will bring a lull for reflection, and the electors will give their verdict on the following day, Monday, November 27.

Premier Pattullo, Hon. G. M. Weir, Hon. G. S. Pearson, and the four Liberal candidates in the city, Hon. John Hart, J. B. Clearburn, Byron Johnson and Alderman W. H. Kline, will speak at the final Liberal rally, to be held this evening at the Royal Victoria Theatre, commencing at 8:15. C. H. O'Halloran will be in the chair.

OTHER MEETINGS

Former Mayor Herbert Anscomb, running as an Independent, will close his campaign with a final rally in the Chamber of Commerce auditorium, commencing at 8:15, this evening.

The Co-operative Commonwealth Federation will hold its closing rally at the City Temple this evening, commencing at 8 o'clock, with V. R. Midgley in the chair. H. E. Winch, member-elect for Vancouver East, and E. E. Winch, member-elect for Burnaby, will be featured speakers, accompanied by the four C.C.F. candidates, W. B. Caird, Rev. Robert Connell, V. R. Midgley and Captain T. G. Sheppard.

Former British Labor Minister Will Talk Here

Fresh from his visit to the United States, where he has been making a survey of the N.R.A. at the invitation of the Rockefeller Foundation, Sir Arthur Steel-Maitland, Bt., M.P., former Minister of Labor in the British Government, is now speaking in the course of a trans-Canada tour he is taking under the auspices of the National Council of Education.

He will speak at the Empress Hotel next Tuesday evening, at 8:30 o'clock, on "Britain and World Stability," and, judging by the comments of Winnipeg and other press reports, another stimulating experience is in store for Victorians who attend the lecture.

After analyzing the effect and prospects of the N.R.A., Sir Arthur, paid a high compliment to the courage of President Roosevelt in launching the N.R.A. programme, and, whatever the eventual result, an American president, it should be remembered, was only 50 per cent executive; for the other 50 per cent he had to be a diplomat.

ECONOMIC RECOVERY

A popular statement by the British visitor was that the pound sterling, with all its faults, was the most stable thing in the world today. Economic recovery could only be partial until currencies had been stabilized throughout the world, and business men were enabled to make commitments in confidence. As an industrialist himself, he realized the problem of having to co-ordinate five currencies at one and the same time.

So far as the success or otherwise of the N.R.A. is concerned, Sir Arthur seems to have been more or less non-committal. Real indications of industrial recovery in the United States were still lacking if success were to be gauged in terms of increased production of capital goods, such as steel and iron, railroads and construction. With 12,000,000 unemployed and heavy wage reductions among the employed, the country was also pulling an enormous load of debt, and there was, of

course, the race between attempts to increase purchasing power and constantly rising prices.

Best Remedy for Cough Is Easily Mixed at Home

No Cooking! No Work! Real Saving!

You'll never know how quickly a stubborn cough can be conquered, until you try this famous recipe. It is used in more homes than any other remedy, because it gives more prompt, positive relief. It's no trouble at all to mix and costs but a trifle.

Into a 16 oz. bottle, pour 2½ ounces of Pinx; then add granulated sugar syrup to make 16 ounces. Syrup is easily made with 2 cups of sugar and one cup of water, stirred a few moments, until dissolved. No cooking needed. This gives you four times as much cough medicine for your money, and it's a purer, better remedy. It never spoils, and tastes fine.

Instantly you feel its penetrating effect. It loosens the germ-laden phlegm, clears the air passages, and soothes and heals the inflamed membranes. This three-fold action explains why it brings such quick relief in severe coughs.

Pinx is a highly concentrated compound of Norway Pine, used for generations for its healing effect on throat membranes. It is guaranteed to give prompt relief or money refunded.

The out-of-town guests at the banquet, which was held in the Green Lantern Hotel, included R. N. Easie, editor of The Lumberman's Journal; W. N. Thomas, supervisor, P.L.B.; Mr. Brown and J. H. Jenkins, of the Forest Products Laboratory of Canada, Vancouver office. In addition to these guests, forty-three of the forty-five white certificate holders of Chemainus were present.

CHEMAINUS LEADS
In making the presentation, Mr. Humbird expressed pride in the fact that during the past ten months the number of white certificate holders here had risen from thirteen to forty-five, placing Chemainus at the top of the list with more white tickets than any other place in the province.

Mr. Humbird expressed appreciation of the efforts of Victor Jackson and Robert Waldon, who conducted the winter classes here, and also of Mr. Jackson's preparation of exhibits and explanatory matter. Mr. Humbird, on behalf of the Victoria Lumber & Manufacturing Company, stated this morning that the cups are for annual competition (to be held one year only), and also that the purse of \$100 for provincial championship and \$50 for Chemainus championship will be given annually.

Lady candidate, to heckler who had been pestering her for a plain "Yes" or "No" to his various questions: "If I ask you a question will you answer 'Yes' or 'No'?"

Heckler: "With pleasure." Lady candidate, employing well-known device: "Have you stopped beating your wife?"

Heckler: "No, I beat her this morning."

Lady candidate: "What?"

Heckler: "Yes—three up and two to play."

FARMING WILL BE CURTAILED

Twelve Months Is Given Dairies and Poultry Raisers to Meet New Code

Amendments to the health by-law restricting the raising of cows and fowl inside the city were introduced at yesterday's meeting of the council. Twelve months' notice of enforcement is given those keeping cows and chickens, which means that the by-law will come into effect on December 31, 1934.

Under the by-law, no person will be allowed to keep more than two cows or goats, and no persons will be allowed to keep such animals that are not tethered when grazing on unfenced land unless the area contains at least 600 square feet for each cow and 300 square feet for each goat.

No person will be allowed to keep more than fifteen head of poultry, and no person shall keep poultry unless the ground is at least twenty feet square for each fowl.

The pens must not be nearer than thirty feet to any dwelling house, while in the case of swine the distance is extended to fifty feet. This means that when the by-law is actually enforced, those in the dairying business will have to seek more suitable dairy locations outside the city.

CHINESE FOUND SHOT TO DEATH

Inquest Over Body of Chin Ack Will Be Held on Tuesday Afternoon

Chin Aek, a Chinese woodcutter, who was found shot through the chest, near Rough Creek, in the Malahat district, Thursday afternoon, is believed to have been the victim of a hunting accident, Provincial Police said, yesterday.

An inquest into his death will be held in Carter's Funeral Parlor on Tuesday afternoon, at 3 o'clock, by Coroner Dr. E. C. Hart.

According to information from the police, no weapons were found in the vicinity of the body, and the bullet which was the cause of the tragedy is believed to have been fired from long range.

A reluctant young man was being medically examined as to his fitness for military service. He pleaded that his sight was weak. He could make nothing of the type on the medical officer's ordinary test-card. Larger type was held up, but still he could not read it. At last, in desperation, the medical officer held a huge tin tray about a foot from his nose.

"Can you see that?" he demanded.

"Yes," was the meek reply.

"What is it?"

"Er—two shilling—or half-a-crown!"

Thomas, vocal duet; Ray Hunt, tap dancing, accompanied by his sister; Frauke, piano solo; The Cornet Wizard; Miss Jessie Pollock, Highland dances; Miss Lillian Grant playing the pipes; B. F. Sead, comic songs in costume, and Dr. Watson.

Refreshments were served by Mrs. Skinner to the artists. Mrs. Gedrim sold home-made candies during the interval.

RECITAL GIVEN TO AID NEEDY

Varied Programme at First United Church Includes Outstanding Soloists

The large audience which attended the recital in the First United Church last evening owed a debt of gratitude to the Onwego Young Men's Bible Class of the church for its splendid work in sponsoring such an interesting and varied programme, in which some of the best of Victoria's musical talent was found.

The proceeds of the recital will be used to provide Christmas cheer for needy families and a good sum was collected. It was only at the request printed on the programmes that the audience refrained from demanding encores, each artist, in turn, receiving full measure of appreciation. The programme opened with "O Canada," followed by Katherine Stokes, soprano, singing two charming numbers, "Vilanelle" (Dell'Acqua), and "I Wept, Beloved, as I Dreamed" (George Hue). Later in the programme, she was heard in "Lullaby of the Ironclads" (Edith Stuart) and "Vainka's Song" (Van Stutzman), and her clear, ringing notes and excellent diction were particularly apparent in all her numbers.

SOLOS ENJOYED
Violet Wilson, contralto, chose six widely varied numbers in her groups—Richard Strauss' "Zueignung," "A Love Song" (Brahms) and Schumann's haunting "Widmung" in the first group, and three songs in old ballad style, "Turn Ye to Me" (Highland air arranged by Malcolm Lawson), "Silent, O Moyle" (old Irish air, arranged by Aras Fisher), and "Think on Me" (Lady John Scott) comprising her last group. Hers was an exceptionally artistic performance.

Edith Reese Burns' dramatic powers came into play in her two readings, "The Man Who Was" by Rudyard Kipling, and "Through the Flood" from "Beside the Bonnie Brier Bush" by Ian MacLaren.

Mr. J. H. Jones delighted the audience with his flute solos, "Souvenir de Naples" (Air Marie) by Terschak; "Liebesfreud" (Kreiser), "Through the Air" (August Nunn) and "Valse Caprice" (Charles T. Howe).

Thomas Kewley, always a favorite with Victoria musical audiences, sang "All Your Hearts" (Mendelssohn), "Largo" (Handel), "Lullaby" (Brahms), "Brier Rose" (Debussy) and "The Maid of the Valley" (Herbeck), which will be sung by a choir of sixty voices at the Arion Club concert next month.

CLEVER PIANIST
One of the treats of the evening was Miss Maquina Daniels' playing, for she is one of the most brilliant of the younger pianists in the city. Her three numbers were "A.D. MDCCC" (Edward MacDow), "Sparks" (an example of virtuosity), and a Bach chorale, "Mortify Us by Thy Grace," arranged by Walter Rummel.

Miss Dorothy Parsons, Mrs. Frank Tappan, Mrs. C. C. Kemsley and Mrs. S. M. Morton comprised a ladies' quartette, singing "I Hear a Thrush at Eve" (Cadmian), "Lullaby" (Gaston Borch), and concluding numbers, "Softly the Moonlight" (Iliffe) and "Hymn to Night" (Beethoven-Spikner).

The soloists were fortunate in their accompanists, Mrs. C. C. Warr, Dorothy Morton Gough, Edward Parsons and Jessie Smith, all of whom played with really artistic feeling.

Greatest Yachting Season of History Promised for 1934

British Yacht Clubs Challenge for Three Famous Trophies—America's, British-American and Seawanhaka International Challenge Cups

NEW YORK, Nov. 24 (CP).—There is nervous apprehension in yachting circles of the United States as the battle lines are drawn for what promises to be the greatest international season in the history of the water sport in this country.

British yachtsmen have announced they will direct a triple offensive in 1934 against American holders of the three most famous cups offered for competition among the world's yachting fraternity.

To start with, the Royal Yacht Squadron of Cowes, Isle of Wight, will send forth T. O. M. Sopwith, the Class "J" yacht Endeavor, to race against a yacht representing the New York Yacht Club, for the famous America's Cup.

SKILLFUL SKIPPERS

Sopwith, a skillful helmsman and a famous designer and builder of airplanes, will try to do what Sir

Thomas Lipton strove so valiantly to do before he died—win and take back to England the historic trophy which crossed the Atlantic many years ago. The races for the cup will be held off Newport, R.I.

Great Britain has also challenged for the British-American Cup and will send over a team of six-meter class boats to meet the Seawanhaka Corinthian Yacht Club, of Oyster Bay, holders of the cup. These races will be held off Long Island late September.

The British-American Cup must be won two years successively for permanent possession. In 1932, America won the cup with four straight victories over the British yachts on the Solent, off the Hampshire Coast, England.

FOR SMALL YACHTS

The other important international contest, scheduled for decision in early October, is for the Seawanhaka International Challenge Cup. The Seawanhaka Corinthian Yacht Club has received a challenge from the Royal Northern Yacht Club, of Scotland, which has been accepted.

This trophy has long been considered the most important of all international small-yacht prizes and is competed for by six-meter class craft. The Royal Northern Yacht Club won it for Canada in 1898 and successfully defended it until 1904. The Canadian yachtsmen finally yielded the cup to the Manchester Yacht Club in 1905.

Why Children's Colds are Best Treated *externally*

A child's stomach is delicate, and constant dosing often leads to a digestive upset. Besides, "dosing" is indirect treatment for a cold. Too often, it does actual harm—spoils appetite and so lowers body strength when it is most needed to resist disease.

For these reasons, mothers the world over prefer Vicks VapoRub, the modern treatment for children's colds. VapoRub is used *externally*—you just rub it on! It can be used freely—and as often as needed—even on the youngest child. Absolutely safe—and doubly effective!

FAMOUS POULITCE-VAPOR ACTION

Applied over throat and chest at bedtime, VapoRub acts through the skin, "drawing out" tightness and soreness. At the same time, its soothing medicated vapors are released by body-heat and inhaled directly to irritated air-passages. The child re-

laxes—sleeps soundly—and by morning, almost always, the worst of the cold is over.

Nothing else gives this unique poultice-vapor action of VapoRub. Nothing else gives the same sure relief. Two generations of mothers have tested and proved Vicks VapoRub as best for children's colds. Today, it is used in over 70 countries—it is a family standby in more than 26,000,000 homes.

VICKS VAPORUB

FOR DEEP-SEATED COLDS

Stronger Stimulative Action.—When there is much tightness or soreness, reddened skin with hot, wet towels before applying VapoRub—then spread it on thick.

Stronger Vapor Action.—When the air-passages are badly clogged—or there is much irritation or coughing—also melt a spoonful of VapoRub in a bowl of boiling water and inhale the steaming medicated vapors for several minutes.

... Just As Good for Adults, Too

DR. G. B. SWITZER ADDRESSES BODY

Victoria West Forum Hears Oak Bay Minister Speak on "Is Church Worth While?"

The Victoria West Community Forum convened in the auditorium of the Victoria West United Church on Thursday, with Dr. Gerald B. Switzer, pastor of the Oak Bay United Church, as special lecturer. Taking as his theme, "Is the Church Worth While?" he affirmed that one's first impulse was to answer that question negatively.

Intolerance had been a trademark of the church since her first official recognition as sole legitimate faith of the Roman Empire through to the present attempt to pilfer an English bishop for allowing a Unitarian in his pulpit. "Through the centuries since Athanasius, the church has run hand in hand with the war makers," said Dr. Switzer, quoting Martin Luther's statement, "War is a business divine in itself and as needful and necessary to the world as eating and drinking, or any other work."

Thousands had been burned to death as late as the eighteenth century for supposed witchery, while clergymen stood beside the fire that consumed them, quoting this text from Exodus, "Thou shalt not suffer a witch to live." George Whitefield, a great evangelist, had supported slavery and many Southern clergymen were slave holders. Far too often the church, past and present, was cowed by capital and power.

GREAT CONTRIBUTION

In spite of its many faults, Dr. Switzer insisted that a deeper survey of the church's influence made it signify apparent that no other institution had contributed so much to building a world with civilization; witness the contribution of the Christian tradition to the calendar, architecture, art, music, literature and philanthropy; to the elevation of the status of women and children and to mediaeval and modern education.

Abraham Lincoln had thanked the Methodist Episcopal Church by special letter for its support in the campaign to free the slaves. William Wilberforce, Clarkson, Buxton and virtually all the outstanding leaders in the campaign against slavery and the slave trade in the British Dominions were staunch churchmen. Today Christian leadership was amazing as never before in the campaign against intemperance, sordid economic conditions and the war system. "To

RESERVES JUDGMENT IN RIGHTS TO REAL ESTATE COMMISSION

In Supreme Court Chambers yesterday, Mr. Justice H. B. Robertson heard argument with respect to the relative rights to money paid as a real estate deal under peculiar circumstances. A commission amounting to \$125 was involved. The transaction had been passed over to a salesman in real estate, who had not taken out his licence under the act governing this business, and who did not take it out until some months later. The matter extended over several months and a dispute as to just when the transaction took place entered into the legal contest. The claims of the holder of the commission order entered into the transaction also. The purchaser of the property paid the commission into court finally, allowing the various claimants to fight it out as to where it should go.

Thomas Miller, counsel for the agent, contended that his client was duly licensed at the time of the transaction, and which was the cause of action, and which was the day when the transfer of the property took place. E. L. Shaw, counsel for the judgment creditor, argued that the law had been violated, as the agent was not licensed during the negotiations, and there-

OPEN VERDICT IS REACHED BY JURY

Mary Ellen Smith Killed in Automobile Accident When on Way to Dance

QUESNEL, Nov. 24 (CP).—An open verdict had been returned, today, at an inquest into the death of Mary Ellen Smith, seventeen-year-old member of a Prince George basketball team, killed in an automobile accident here, early Saturday, while en route, with other high school students, to a dance at Bouche Lake.

Little Bedtime Stories

Jenny Wren Gossips About Hummer

By THORNTON W. BURGESS

As Peter Rabbit sat staring up at the tiny nest of Hummer the Hummingbird which he had just discovered, Jenny Wren came along. Being quite worn out with the feeding of her seven babies, Jenny was content to rest for a few minutes and gossip. Peter told her what he had discovered.

"I know all about that," retorted Jenny. "You don't suppose I hunt these trees over for food without knowing where my neighbors are living, do you? I'd have you to understand that this is the dearest nest in the Old Orchard. It is made wholly of plant-down and covered on the outside with bits of lichen and moss like stuff that grows on the bark of the trees and is called lichen. That is what makes the nest look like nothing more than a knot on a branch. Chatterer the Red Squi-

"What do you mean by pumping food down their throats?" he demanded.

Peter looked perplexed. "What do you mean by pumping food down their throats?" he demanded. "Just what I say," retorted Jenny Wren. "Mrs. Hummer sticks her bill right down their throats and then pumps up the food she has already swallowed. I guess it is a good thing the babies have short bills."

"Do they?" asked Peter, opening his eyes very wide. "Yes," replied Jenny. "When they hatch out they have short bills, but it doesn't take them a great while to grow long."

"How many babies does Mrs. Hummer usually have?" asked Peter.

"Two," replied Jenny. "Just two. That's all that nest will hold. But goodness gracious, Peter, I can't stop gossiping here any longer. You have no idea what a care seven babies are."

With a jerk of her tail off new Jenny Wren and Peter hurried back to tell Johnny Chuck all he had found out about Hummer the Hummingbird.

Nerves "on Edge" Is Your Warning

Avoid a Breakdown

It is comparatively easy to avoid a nervous breakdown by the timely use of Dr. Chase's Nerve Food to enrich the blood and create new nerve force. The process of recovery from a complete nervous breakdown is at best slow and tedious.

When you find yourself living at high tension—easily worried and irritated—quickly tired—subject to sleeplessness, headaches and despondency—you may be sure that you are headed for serious trouble. It is time for you to begin using Dr. Chase's Nerve Food to build up the depleted nerves.

You cannot get the most out of life when you go about feeling tired and languid—depressed and discouraged. But you will not

be using Dr. Chase's Nerve Food long before you will find yourself taking a decided different view of life. Gradually and certainly the vigor of the nerves is restored. You find yourself resting and sleeping well. You will have better control of yourself and be able to throw off the fears and worries which have distressed you.

Restores Tired, Sleepless Nerves

LOVE'S LOTTERY

by Katharine Haviland-Taylor

SYNOPSIS

It is in answer to her prayers when Geoffrey Field asks Cissy Eden, an only little daughter of ten, to dance with him at Miss Minchard's School. Geoff hears little gossip about Cissy's mother's divorce and remarriage so that Cissy can overhear them, and his sense of fair play sends him to her rescue. She is so thrilled that she decides to elope with him. There is an amazing transition from the ugly duckling, and by the time she is twenty her mother's beauty, when her mother divorced just before his death. "I danced with Geoffrey Field!" she is a success of a hotel at fashionable resorts. There is an amazing transition from the ugly duckling, and by the time she is twenty her mother's beauty, when her mother divorced just before his death. "I danced with Geoffrey Field!" she is a success of a hotel at fashionable resorts.

CHAPTER VI

Miss Ella was entranced by the arrangement; Geoffrey became "A dear old boy" to her. He was constantly to her friends and to Cissy, which was satisfactory to Cissy, if not to the friends, or to Geoffrey, who hated lost motion and black balls in the social as well as in the business world. "A perfect old dodo, Miss Ella," he decided—and one flaw in Cissy was made for him by her refusal to laugh at Miss Ella with him.

He had to laugh or "go crazy," she drove him crazy! Babbled her gossip, which she distilled by her own invention. "I, myself, don't believe one word of it!" Or "pawing" him.

At the close of one afternoon in late January Miss Ella came in to find Geoffrey sprawling in a deep chair, with Cissy as the piano in the room with a languor that confessed the battle he had had that day (and won) in the Street.

She looked at him, she began; he quailed a mentally-prompted physical tendency to raise his brows. "So sweet to find you here!" she dropped to a low chair by the tea cart that Benson had rolled in. "I've heard the most distressing news," she went on, as she tugged from her short hands her too-tight gloves. "Philip Condon has run away with her husband's secretary, and what they will live on one knows, although Marcia Tait thinks Philip has a sufficient income of his own, left her by her mother, but neither of us could remember the figures. Marcia told me during the prayer offered by Doctor Watts, who opened the benediction to us, that he had been reduced to nothing by wealth."

"Sorry," he apologized, leaving her. "I've been such a dud to-night, dear. But I'll see you tomorrow."

"Geoff, I do love you. I hate so—having you so tired!" "Oh, well! Necessary, I guess," he answered jadedly. "Good night."

She found Geoffrey's offices to be amazing, as he had hoped she would. He had not announced her coming to anyone. He had planned the wait during which she should "drink it all in."

She did, sitting on a stiff bench outside a small mahogany fence which divided the financial bulk and their helpers from the sheep. The clock of typewriters filled the air after the bold clock hands marked out men hurried feverishly—papers in their hands—ward desks where girls worked; stooped rather languidly at Cissy's feet, as she passed, even, sometimes, allowing their steps in order to stare.

Once and again some startled mortal would explode from the elevator to rush through the small gate, which clanged shut after his passing. Once in a small full hall she heard Geoff's voice, loud and sure and strident.

The information desk was perhaps four feet from her and back of her as she sat. She heard someone call the girl, who had just taken her place at the desk, as "Miss Miggsey."

She did not know she was listening until she heard, "Miss Marks wants to know whether you looked in the 'Pink' windows as you came down this morning."

ing her the same bouquet."

"Kind of funny he doesn't ever order them, isn't it?" "Oh, I don't know. She hasn't shed her sweetie kept hand—any kick. That baby won't ever need any new shoes! Miss Marks ordered the most wonderful orchids yesterday. Honest, they'd knock your eye out!"

Orchids, Cissy thought. She had had orchids yesterday. She considered the talk until its purport was a chilling certainty. Then she heard: "He writes on his card sometimes—"

(He had twice.) "Just the same," said the girl who had been hailed as Miggsey. "I'd rather have one chrysanthemum in season if my boy liked it out—"

Cissy swallowed hard and of nothing. "What's her name?" she heard then.

"Cissy Eden," Cissy heard as her cheeks grew warm.

Little Miggsey's cheeks grew warm a moment later; she had heard a buzz and his order, and he said "information, have someone bring Miss Eden, who is waiting, to my office."

Cissy was rather silent, eating her luncheon with Geoffrey. He attributed her silence to her having been impressed. She had been impressed, true, and in two ways. He noticed, coming back to his office, that the girl at the information desk looked up at him anxiously. He thought this was because she had taken the morning off. "She's a good sport," little Miggsey thought, with a deep breath, which was drawn of relief.

"She didn't tell—"

"All right," she framed with her lips, carefully and curiously, and to Cissy's surprise, she was watching her from the rear of the outer office.

But that it was not "all right," Cissy Eden had been attended. (To Be Continued.)

What Today Means

"SAGITTARIUS"

If November 25 is your birthday, the best time for you on this date are from 10:40 a.m. to 12 noon, from 5:45 to 6:40 p.m. The danger periods are from 8 to 9 a.m., from 1 to 1:40 p.m. and from 8:45 to 10:20 p.m.

You will possibly feel it necessary to "down" the other person on this date and you will be inclined to go to almost any length to get yourself recognized. Curb such impulses; a helping hand will not only help the other person, but yourself as well. Servants and employees will be inclined to talk back and will tend to resist the authority of yours.

The child born on this November 25 will not be one to "hem and haw" when asked for a direct answer; he will know exactly what he wants and will not hesitate to speak right out for it. Not forward, but absolutely at ease and quite unconcerned even when many older eyes are trained on him. Will carry out his parlor stunts when called on to perform. Will want to go in for dramatics.

If November 25 is the date of your birth, you will probably succeed best as assistant to some person who can initiate plans; you are quick to see and grasp the unfinished plans and schemes of others and under the surveillance you can carry them out to completion. You are probably not a big enough person to act as head of some great enterprise, nor is that your ambition. You like to work under and with others; you fit in well with all people, you co-operate willingly, you are glad to exchange ideas and give others the advantage of your thoughts. You are a naturally trusting person; you seldom run across people who give you a "raw deal" and more than likely because such a possibility never occurs to you. You are able to visualize plans and see them in their finished state; you have the ability to master some very technical sort of work, something that requires a good deal of skilled hand-work. Architecture should appeal to you; painting you may make a hobby of.

Born on November 25, you have a good sense of humor; you have an implicit way of making others the best of you, jokes and making them like it. Seldom do you offend in any way. You enjoy the companionship of both sexes and you have the faculty of getting along with those of the opposite sex without indulging in sentimentality.

"That was an excellent paper your daughter read last night on 'The Influence of Economics as Applied to Practical Government'."

"Was it? Well, for the last month we've had to hire someone to find out about the influence of the vacuum cleaner as applied to the dining-room carpet!"

PIMPLES OR ACNE.**Ten years ago the biggest selling
point about an article was that it
was good for the health; articles 19,improve one's appearance—beauty
preparations—stood as low as thir-
tieth on the list. Today we find
the health appeal as strong as ever,
but the beauty or "appearance" ap-
peal now stands at the head of the
list with the health appeal.One of the disfiguring conditions
that causes distress, embarrassment,
an inferiority complex, is "pimples,"
or acne, as it is now called. Com-
ing on in the teens and remaining
until near the age of thirty, just
when appearance means so much,
there is no question but that some-gland condition—thyroid, parathy-
roids or other gland—so changes
the body processes that certain
foods are not handled as well as
they should be and acne results.Thus cutting down on certain
foods has helped some cases, and
using ultra-violet rays has helped
others.What may be a wonderful dis-
covery and a great blessing to these
distressed individuals is put for-
ward by A. Dokovsky and S. S.
Platt, Chicago. Being sufferersunder the supervision of Dr. A. B.
Luckhardt.As the ultra-violet rays improved
their condition temporarily, they
got the idea that vitamin D itself
might be of help, so starting off
with ten drops a day of viosterol in
oil 250 D, increasing the dose
gradually until at the end of two
weeks they were taking twenty
drops a day, they continued the
viosterol for another two weeks, or
four weeks in all.As the treatment lessened the
number of pimples or pustules asthey are called, by at least eighty
per cent, it was decided to try the
treatment on thirty-five men and
women of the University of Chicago,
ranging in age from seventeen to
thirty. They were given exactly the
same treatment, that is from ten
to twenty drops the first two weeks
and twenty drops the second two
weeks.After a period of from four to five
weeks of this treatment there was
a seventy to eighty per cent im-
provement in ninety per cent of the
cases. In the remaining cases therewas a forty to fifty per cent im-
provement.The way the improvement was
determined was by counting the
pustules on the chest, face and back
before and after taking the vios-
terol. In ten cases for a period of
two weeks the viosterol was discon-
tinued and the pustules again in-
creased.The above experiment should
stimulate physicians to try this
treatment as the usual treatment
is slow and discouraging.

Colonist Campaign To End Today With Holding of Finale

More Than 500 Children Expected to Take Part in Closing of "Learn to Swim" Instructions—Diplomas Will Be Presented

This afternoon, at 2:30 o'clock, the south ballroom of the Crystal Garden will be the scene of a gala occasion, when over 500 children, who have been entered in the "Learn to Swim" Campaign, will receive their diplomas, testifying as to their ability to dive and swim across the pool. The handsome, engraved diplomas will be presented by Alderman Walter Luney, assisted by A. H. Cowlishaw, manager of the Crystal Garden; the two instructors, Fred and Mary Ellison; J. L. Tait, managing director of The Daily Colonist, and A. T. Stewart, Colonist advertising manager.

Through the courtesy of Mr. Cowlishaw, the Crystal Garden will be thrown open to the public, from 2 until 4 o'clock.

To fifty children, who have shown outstanding progress in their classes, Victoria Amateur Swimming Club will present complimentary membership tickets.

This event marks the close of The Daily Colonist "Learn to Swim" Campaign, under which children have been given a six-week course in swimming at the Crystal Garden. Under the supervision of

Mr. Cowlishaw, the instruction has been carried out by Fred and Mary Ellison, and tribute is due to them for the manner in which they have carried out their duties. The greater

ARGOS WILL CLASH WITH MONTREALERS

To Meet in Inter-Provincial Final Today—Toronto Has One-Point Lead

MONTREAL, Nov. 24 (CP).—Toronto Argonauts carry the slim margin of a single point into the final struggle for the Inter-Provincial Rugby Football Union championship against Montreal, here, Saturday. This all-important final battle between the two strongest teams of the Big Four will decide whether the Double Blue or the Montrealers continue in search of the Dominion senior title.

Domestic championship plans of the Canadian Rugby Union have been held in abeyance until the Big Four declare their champions.

Total points decide the series, so if Ab Box, Tommy Burns and company can hold or increase their one-point lead here tomorrow, they will be eligible to carry on their campaign for the senior Dominion title. Montreal was speculating on chances of a favorable football weather for tomorrow. Rain and a bright sun during the week have reduced the snow.

Coach Clarry Foran has been drilling his wing line this week, and hopes to stop the Toronto tank corps. Given a dry field, Foran hopes to see his team's forward pass offensive clicking better than last week, when the Montrealers were unable to complete a single toss.

Toronto are confident, though. Lou Hayman is counting on the blasting punts of Box and Munro to hold the Montreal men.

U.S. Golf Bosses Suggest Important Changes in Rules

Long Series of New Regulations, Effective January 1, Will Conform With Modern Conditions—Old Country Approves Them

NEW YORK, Nov. 24 (AP).—With the approval of the Royal and Ancient Golf Club, of St. Andrews, Scotland, the executive committee of the United States Golf Association today announced

adoption of a long series of changes in the rules, effective January 1, 1934.

Generally speaking, the alterations are aimed at simplifying the language of the rules, clarifying ambiguities and bringing the code up to date and in conformity with modern conditions and modern golfing architecture.

The changes, approved at the Royal and Ancient, ruling body of the game in Great Britain, at its Fall meeting, September 26, and by the U.S.G.A.'s executive committee at its meeting yesterday, represent the fruit of a year's discussion between the two associations.

THE CHANGES

Among the changes were: A change in the definition of a hazard, so that a path or bush no longer are considered hazards; and scrapes and casual water and all tracks are excluded from the definition of hazards.

An amendment to Rule 2 providing that, unless the ball lies in or touches a hazard, the removal of loose impediments is now permitted, even though they are more than a club's length from the ball, and even if the loose impediment lies in a hazard.

An amendment to Rule 15, adding a provision that before striking at a ball in play, "a player shall not move, bend or break anything fixed or growing."

An amendment to Subdivision 1, Rule 27, so that now, where a ball is played from a tee box, it may be played from a water hazard, it may be played from a water hazard, it may be played from a water hazard.

An amendment to Subdivision 2, Rule 29, now omits the right given to either side to refuse to allow a person not engaged in the match to stand at the hole.

In the Strike Rules, some of the changes made were: Subdivision 2, Rule 8, has been altered to make the penalty two strokes instead of disqualification, for playing one or more strokes with a wrong ball.

Rule 9 has been altered to make the penalty two strokes instead of one where a competitor's ball strikes himself, his caddy or his club.

Rule 13, Subdivision 2, changed to increase the penalty from one stroke to two where a competitor on the putting green strikes the ball of his fellow-competitor. The same change is made in Subdivision 5, where a competitor's ball strikes himself while his fellow-competitor's ball is in motion, both being on the green.

SEVERAL BIG GRID GAMES ARE BILLED

Notre Dame Faces Southern California Today—Three Others Carded

NEW YORK, Nov. 24 (AP).—United States football's great day, with the games that go to make a national institution instead of a mere game out of the gridiron sport, comes tomorrow. It is the day when Army meets Navy, when Yale clashes with Harvard, when California and Stanford come together, when Notre Dame and Southern California meet.

All these games, fairly dripping with color, and carrying background of age and tradition, make the day momentous for grid followers.

The Midwest sees the windup of the Big Ten campaign, with Northwestern taking a final crack at Michigan's title claims. Ohio State and Illinois fighting it out for a place in the sun; Chicago facing Dartmouth in an inter-sectional fray. In addition, there are the Minnesota-Wisconsin, Indiana-Purdue, Nebraska-Iowa and Detroit-Michigan state games.

The Stanford-California clash on the Pacific Coast usually attracts one of the season's biggest crowds. Sport giving the fans something worth going for. And for those who can't see that game, there are the University of California at Los Angeles, St. Mary's and Washington State Washington struggles.

LIONS DEFEAT ESKIMOS, 2-0

Vancouver Hockey Squad Turn In First Victory of Season by Beating Edmonton

VANCOUVER, Nov. 24 (CP).—Vancouver Lions broke into the win column of the Northwestern Professional Hockey League, when they defeated Edmonton Eskimos, 2-0, here tonight. The victory put the Lions into the lead over the Eskimos, who have lost all three starts in their league schedule.

Palm, speedy Vancouver left-winger, sent the Lions into the lead halfway through the last period, when he hoisted a high shot from the Edmonton blue line. Robertson stopped the puck, but it slipped through his hands.

CRUSHING RIGHT TO CHIN HALTS CUBAN IN NEW YORK RING

Former Lightweight Champion Starts on Way Back to Glory by Giving the "Kid" Terrific Beating Before 12,000—First Knockout of Negro's Brilliant Career

By EDWARD J. NEIL Associated Press Sports Writer

NEW YORK, Nov. 24 (AP).—The Cuban, seeking right hand that won brilliant title Tony Canzoneri, then felled him in his little duels with Barney Ross, started him back tonight toward ring glory he once knew.

It lashed into the head of sleek Kid Chocolate, the masterful bit of Negro fighting machinery from Cuba, once, then again, and the Bon Bon "Kid" crumpled, knocked out in two rounds of a ten-round battle before a crowd of 12,000, battered senseless for the first time in his spectacular career.

Sensational as the night he reached out, three years ago, and felled Al Singer with a left hook and a right cross to the jaw in the first half-minute of the fight in which he won the lightweight title, Canzoneri, the former bootblack from New Orleans, finished Chocolate tonight with the skill and dispatch of a master craftsman.

He wants another chance to go to war with Ross, the Chicago

champion, Chocolate stiffened and toppled forward so rigidly, his forehead was the first part of him to hit the canvas. At seven he rolled over onto his back, fought to get his legs under him, but again it was in vain. At "nine," he slid down again onto his back, and Referee Arthur Donovan completed the count two minutes and thirty seconds after the start of the second round.

The knockout was the first of Chocolate's career, and presaged the beginning of the end for the sensational Negro, who came from Cuba half a dozen years ago to dazzle the faithful who still remembered the skill of old Joe Gans.

Canzoneri weighed 133 pounds tonight, and never looked better. He'll probably get his third chance against Ross before the indoor season ends. Chocolate ended 130 pounds.

ENGLISH RUGGERS IN IMPORTANT GAMES TODAY

Canadian Scottish And Navy XV Will Meet in Main Tilt

Senior Fixture Switched to Royal Athletic Park—Fifth and Wanderers Will Clash at Oak Bay Park—Garrison Will Face Bays in Crucial Senior "B" Battle

Fifteen fighting Canadian Scottish will hurl themselves at the well-equipped Navy squadron of senior rugger this afternoon at 2:45 o'clock in the feature tussle at Royal Athletic Park. The change in grounds, from Admirals Road to the city, was announced yesterday morning.

It is a crucial game for the soldiers, as a win is necessary for them to stay in the running for first-half honors. The Navy, however, have shown splendid teamwork this season in snowing under the Wanderers last week, 24-0.

Comprised mostly of new faces,

the Scottish scrum will meet a real test. Ted May, veteran rugger, is expected to be the main strength in the scrum which will be directed by stocky Harry Robson at half. Brunt of the battle will fall on the improved backfield, comprising Jack Horne, Bobbie Tye, Chuck Copeland, Ralph Hocking and Ted Colgate, of Canadian Rugby repute.

NAVY READY

Despite their recent defeat of 6-0 at the hands of the Fifth Regiment, the Navy players declare themselves prepared to trample the Scottish under foot. Coach Charlie McDonald is expected to produce a well-balanced team, but has kept prediction of the game's outcome to himself.

A hard match is expected in the senior "A" division between the Fifth Regiment and the Wanderers at Oak Bay Park. The gunners are anxious for a win, which will tie them for first place with the James Bay Athletic Association.

As an undefeated squad in the senior "B" section, the Garrison will face last year's champions, the Bays, at the Canteen grounds, in what should be one of the toughest battles of the day. Both teams are geared to near perfection, and

Rugby enthusiasts are expected to flock to the grid war.

In the same division, the Tommies will exchange tactics with the Fifth Brigade at Work Point. Victoria College's intermediate rugger will entertain the Fifth company at Victoria High School, while the Scottish will attempt to upset the J.B.A.A. at Oak Bay Park.

VARSITY TO INVADE CITY

U.B.C. Students Will Be Here for Track Meet Against Y.M.C.A. Team

VANCOUVER, Nov. 24 (CP).—Varsity's track club will travel to Victoria next Thursday, to compete with Victoria "Y," and possibly Victoria College. It has been announced by students' council of the local university. Freshman and sophomores will not be allowed to make the trip, however, due to proximity of the Christmas season. Consequently the team will be without the services of Gordie Heron, broad jump and sprint star, and Jim McManis, who has proved the field event "find" of the year.

LIST OF EVENTS

Eight events will be contested, a forty-five-yard sprint with Bill Stott as certain Varsity competitor. Running the list, only one man will compete in each event for Varsity. Test meets will be held to select the winners. Don McTavish and Joe Robson will start the 100 while Max Stewart will compete with Bob Osborne for 440 laurels. Herbert "Toby" Barclay is Varsity's favorite for the half-mile, as nobody can touch him at the distance. Sid Swift and John Y. Smith will battle for supremacy in the mile event.

WITHDRAWS PROTEST
MONTREAL, Nov. 24 (CP).—The protest Ottawa Senators lodged with National Hockey League authorities following their game against Toronto Maple Leafs at Toronto, on November 18, was withdrawn today, it was announced by Frank Patrick, managing director of the league.

Patrick will discuss the markings with Conny Smythe, manager of the Leafs, when he is in Toronto tomorrow. Smythe has said there was no N.H.L. rule obliging him to mark goal creases on the Leafs' home ice.

First Movie Actor: "I say, fancy that pistol being loaded by mistake! Jolly rotten for you, old man!"

Second Movie Actor: "Oh, I wouldn't have minded that so much, but the director shouted: 'That's not the way to fall when you're shot you idiot!'"

Old Country Board Will Not Recognize Australian Sculler

British Officials State That Pearce Did Not Win World's Title Under Proper Conditions—Accepts Challenge of Snowey Burns

HAMILTON, Nov. 24 (CP).—Bobby Pearce, giant Australian sculler, who won the world's professional championship at Toronto in September by easily defeating Ed Phelps, of England, said today he had received notification from the British Sculling Board of Control that he was not recognized as champion because the Toronto race was not staged under conditions approved by the board.

Pearce defeated the champion by a quarter of a mile in a three-mile title race, but from the British point of view Bobby failed in several ways to earn the championship. He did not put up a \$600 deposit with the B.S.B. of C., nor race under conditions approved by the board nor under the eye of a referee named by the board.

On receipt of the letter, the big Australian, twice Olympic champion before he turned professional, to race Phelps, immediately announced he is ready to meet any sculler named by the British board on the Thames River in England—"any distance, any opponent."

B.S.B. of C. rules call for title races to be rowed over a straightaway course, whereas Phelps and Pearce made two turns in the breakwater course in Lake Ontario.

ACCEPT CHALLENGE

Meanwhile Pearce has accepted a challenge to race "Snowey" Burns, of Australia, for the championship on the condition Burns comes to Canada for the match. Bobby said Burns' challenge included a side bet of \$2,500, and this had also been accepted.

This race is unlikely to be a two-man affair, it is understood. Several other possible challengers may line up with Burns against Pearce next Summer. Prominently mentioned are Eric Phelps, brother of the beaten Ted, and Bill Miller, former United States amateur champion and runner-up to Pearce at the 1923 Olympics.

Burns has two rivals in Australia, Joey and Jack Fisher, who must be downed before he will come to Canada. It is expected the three Australians will stage an elimination race, the winner to come to Canada for a title bid.

FINANCE - COMMERCE - MARKETS

Securities Take Firmer Stand at New York Mart

NEW YORK, Nov. 24 (AP).—Security and commodity markets, including United States Government bonds, accompanied the United States dollar higher today as the Reconstruction Finance Corporation left its gold-buying price at \$33.75 an ounce.

Dollar exchange had a sharp recovery, presumably speculators who not so long ago were selling United States currency had again gone into the market to buy, perhaps because they thought the unchanged Washington figure for gold had stabilizing implications.

Favorable influences were at work in the bond market, where corporate as well as Federal loans rallied. Recovery of investment listings and the fair degree of strength displayed by many commodities, including wheat and cotton, brought buyers into the stock market, although the over-all lower prices might have been expected in view of the dollar's performance.

Wall Street's friendliness toward utility and rail stocks was taken as an indicator. Inflation fears had again subsided.

Steel shares were steady and automobiles lagged, while gold stocks, conforming to the day's pattern, eased.

The bond market staged its best performance in several months coincident with a sharp rally of the United States dollar.

Prime investment, utility and industrial loans made the best showing in these sections.

French bonds were off 3 3/4 to 7 1/4 points. Issues of the United Kingdom declined 2 to around 5.

THAT WORD "ABJECT"

"The most abject poverty"—"the most abject misery"—we all find a good deal of use for "abject." And it is a word which illustrates one process by which words evolve into modern use with a significance which differs from that of their origin.

Originally "abject" meant not cast down, low-lying, slavish—as it does today—but simply "to throw away." If its modern significance can be stretched to "thrown away," we might say its position has changed from the door to the done-by.

We have the word from the Latin, "abjicer," to throw away. This is "ab," off, plus "jacer," to throw. It was a verb meaning to throw down, to cast off, then to degrade, that the word was first known in English. The adjective was an extensive in meaning.
